

TK-TRI-FILM RTU (READY-TO-USE) Evaporation Retardant

Item No. TK-2120 RTU

PRODUCT DESCRIPTION

TK-TRI-FILM RTU is a ready-to-use evaporation retardant for freshly placed concrete to prevent premature drying that can result in finishing problems such as stickiness, sponginess, unevenness and cracking.

Features:

- Particularly effective when placing concrete in adverse conditions such as direct sunlight, high temperatures, low humidity and high wind velocity.
- Reduces surface moisture loss up to 80%.
- Does not interfere with the cement hydration process, nor with the application of curing compounds, sealers, waterproofing treatments or other coatings.
- Provides a protective barrier during finishing procedures and makes these procedures easier and more economical.
- Mixes with water.

USES:

Suitable for interior or exterior use on freshly placed concrete flat work. Use with silica fume, polymer-modified and dry shake floors.

APPLICATION PROCEDURES:

PREPARATION:

TK-TRI-FILM RTU is designed to be applied to fresh concrete immediately after screeding or bull floating.

MIXING:

TK-TRI-FILM RTU is supplied ready-to-use and requires no mixing or dilution.

APPLICATION:

Apply using a clean hand pump tank-type sprayer with constant pressure. Spray uniformly across fresh concrete and reapply to localized areas as needed to prevent premature drying. Note that TK-TRI-FILM RTU is formulated with a translucent dye to aid in uniform application that will disappear upon drying.

COVERAGE:

TK-TRI-FILM RTU will yield a coverage rate of 200-400 square feet per gallon. Coverage rates are provided as a guideline only. Many factors including surface texture, porosity and weather conditions will determine actual coverage rates.

CLEAN UP:

Clean tools and equipment with soap and water.

LIMITATIONS:

- Use of TK-TRI-FILM RTU does not replace proper curing procedures.
- Do not allow to freeze.
- Apply only as a fine spray.

FIRST AID:

- Consult this product's safety data sheet for additional health and safety information. Safety Data Sheets are available through TK distributors, the TK office and the TK website.

AVAILABILITY:

TK-TRI-FILM RTU is available through TK Distributors. Contact TK Products for the nearest distributor. Packaged in 55-gallon drums, 5-gallon pails and 1-gallon cans.

TECHNICAL DATA

Composition and Materials: A monomolecular hydrocarbon chain.

Color:	Yellow
Solids by Weight (%):	.47%
Viscosity (@ 77°F):	16-18 sec Zahn #2
Flash Point:	N/A
VOC Content:	< 200 g/l
A.I.M. Category:	This product is not currently regulated by 1999 Federal EPA VOC regulations

02/16 Last Rev. N/A

CONDITIONS OF SALE/ LIMITED WARRANTY

TK Products, division of the Sierra Corporation, warrants that its products conform to the label descriptions, are free from manufacturing defects, and are fit for the ordinary purposes for which such goods are used. Inasmuch as the use of TK Products' product by others and other factors affecting product performance are beyond TK Products' control, TK Products does not guarantee the results to be obtained. There are no warranties except as stated herein, either express or implied, including implied warranties of merchantability or fitness for a particular purpose. **SHOULD ANY TK PRODUCTS' PRODUCT FAIL TO GIVE SATISFACTORY RESULTS, TK PRODUCTS WILL REPLACE THE PRODUCT, OR AT ITS OPTION, REFUND THE PURCHASE PRICE. THIS IS THE SOLE AND EXCLUSIVE REMEDY FOR ANY FAILURE OF TK PRODUCTS' PRODUCTS TO PERFORM AS WARRANTED AND SHALL ALSO CONSTITUTE LIQUIDATED DAMAGES IN CASE OF LOSS. UNDER NO CIRCUMSTANCES SHALL THE BUYER BE ENTITLED TO ANY OTHER REMEDY OR DAMAGES. REMEDIES FOR INCIDENTAL AND CONSEQUENTIAL DAMAGES ARE SPECIFICALLY EXCLUDED.** TK Products does not authorize any person to assume for it any other liability in connection with the sale or use of its products unless specifically authorized by TK Products in writing.

TK DISCLAIMER:

Every effort has been made to ensure the accuracy of the above information and to avoid infringement of any patent or copyright. The information is based on field tests by government and private agencies, as well as lab tests, and on technical data from raw material manufacturers. The person(s) specifying or requesting the use of these products is responsible for assuring their suitability for a specific use, as well as the proper application of the products. Where there is any question as to the suitability of a particular product, a small test patch is recommended. See also CONDITIONS OF SALE/ LIMITED WARRANTY (Section 7) above.
