## **TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING**

### **Product Information Statement for LEED® New Construction (NC) Version 2.2 Credit Documentation**

TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING is a liquid, spray applied foundation coating designed to resist or prevent leakage of water in liquid form under hydrostatic pressure.

**TK Products certifies the following information for TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING:**

#### **Manufacturing Location**

TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING is manufactured in Minnetonka, MN.

#### **Regional Materials**

25% by weight of TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING was produced with regionally extracted and processed materials.

#### **Recycled Content**

TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING is manufactured with 6% combined recycled content.

#### **VOC Content**

TK Products certifies that the VOC (volatile organic content) of TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING is 560g/l.

**Based upon the above information, TK Products certifies that TK-HYDROMAX® 2002 FOUNDATION WATERPROOF COATING may contribute to the following LEED NC v2.2 Credits:**

- EA Credit 1: Optimize Energy Performance
- MR Credit 2: Construction Waste Management
- MR Credits 4.1 & 4.2: Recycled Content: 10% & 20% (post-consumer + ½ pre-consumer)
- MR Credits 5.1 & 5.2: Regional Materials: 10% & 20% Extracted, Processed, & Manufactured Regionally
- IEQ Credit 7.1: Thermal Comfort – Design
